

KEERTHI KAPPERA

Hyderabad, India • keerthikappera@gmail.com • +91 9848328509 • [LinkedIn](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Data Science graduate with **2+** years of professional experience at **Tata Consultancy Services (TCS)**, specializing in **Data Engineering**, **analytics**, and **enterprise data systems**. Proficient in **Python**, **SQL**, **ETL pipelines**, **AWS**, and **Machine Learning**, with hands-on experience in **data validation**, **workflow automation**, and **business intelligence**.

TECHNICAL SKILLS

Languages: **Python** | **SQL** | **PL/SQL**

Data Engineering: **ETL Pipelines** | **Apache Airflow** | **Data Validation** | **Data Processing** | **Workflow Automation**

ML & AI: **Machine Learning** | **Deep Learning** | **Scikit-learn** | **TensorFlow** | **PyTorch** | **NLP** | **OpenCV** | **Pandas** | **NumPy** | **RAG** | **LLM**

Cloud & BI: **AWS (EC2, S3)** | **Azure Fundamentals** | **Power BI** | **Matplotlib** | **Seaborn**

Tools: **Git** | **GitHub** | **Jupyter** | **ServiceNow**

PROFESSIONAL EXPERIENCE

Assistant System Engineer (Data Engineer) | Tata Consultancy Services Pvt. Ltd. | Hyderabad, India *Oct 2021 – Jul 2023*

- Developed and optimized **SQL/PL-SQL queries** for data extraction, transformation, and reporting within enterprise inventory management systems.
- Performed **data validation**, **cleansing**, and **reconciliation** to improve data quality and consistency.
- Supported production systems by troubleshooting issues and resolving incidents through **ServiceNow**.
- Collaborated with cross-functional teams to enhance operational efficiency and support business-critical applications.

AI Research Intern – AdM-DM Project | University of New Haven, USA *Jan 2025 – May 2025*

- Built an ML-based admission prediction model achieving **90%+ accuracy** using **regression techniques**, **Python**, and **Scikit-learn**.
- Performed feature engineering, model evaluation, and hyperparameter tuning to improve predictive performance.
- Contributed to AI research activities including experimentation, analysis, and research paper preparation.

Volunteer Data Scientist | CDF – Non-Profit Organization *Sep 2025 – Feb 2026*

- Conducted exploratory data analysis and data preprocessing for organizational datasets.
- Developed **machine learning models** and generated actionable insights for stakeholders.
- Created visualizations and reports to support data-driven decision making.

KEY PROJECTS

Tweet Sentiment Analysis **AWS EC2** | **Apache Airflow** | **NLP** | **Python** *Jan – May 2024*

- Processed and labeled **1M+ tweets** using NLP preprocessing pipelines and text analytics techniques.
- Developed and evaluated **Naive Bayes** and **Logistic Regression** models for sentiment classification.
- Automated data workflows using **Apache Airflow** and deployed solutions on **AWS EC2**.

Real-Time Face Mask Detection **OpenCV** | **TensorFlow** | **CNN** | **Raspberry Pi** *Jan – May 2021*

- Built and trained **CNN-based computer vision models** achieving **95% accuracy** in face mask detection.
- Utilized **OpenCV** and **TensorFlow** for image processing, model training, and evaluation.
- Deployed the solution on **Raspberry Pi** with real-time sensor integration for live monitoring.

EDUCATION

M.S. Data Science – University of New Haven, USA | CGPA: 3.52/4.0 *Aug 2023 – May 2025*

B.Tech ECE – DVR & Dr. HS MIC College of Technology, India | CGPA: 7.94/10 *Jun 2017 – Jun 2021*

CERTIFICATIONS

Microsoft Power BI Data Analyst Associate | Machine Learning with Scikit-learn | Python for Data Visualization | Data Ingestion & Cleaning in Python | DevOps for Data Scientists
